

Senate of the Associated Students of the University of Nevada

82nd Session, 2014-2015

AN ACT MAKING APPROPRIATIONS TO PURCHASE SOUND AND LIGHT EQUIPMENT

Bill Number: 82-28

Authored By: Senator Warner

Sponsored By: Committee on Budget and Finance

Be it enacted by the Senate of the Associated Students,

Section 1: Purpose

In Fall 2013, Sound and Lights presented a three year plan to ASUN President, Ziad Rashdan, and the Committee on Budget and Finance to update the equipment inventory of about \$6,500 per year for a total of \$19,500 for 2013-2015. This was due to the fact that much of the equipment in the inventory was aging and failing at events.

Sound and Lights would like to continue with the replacement plan and has researched the equipment for the second request to update the equipment.

Section 2: Findings

The Director of Sound and Lights has broken down the purchases of Sound and Lights equipment for the second year of the three year plan. It is proposed that four small rugged mixers are purchased to replace problematic mixers and allow for USB sound input and recording within the mixer. Each mixer costs \$300 for a total of \$1,200. In addition, four mixer cases can be purchased for \$250 each for a total of \$1,000. Two 8-LED par can kits can be purchased to increase stage lighting capability for all events and allow for light at simultaneous events for \$650 each for a total

of \$1,300. Required Cords, hardware, and adapters can be purchased for \$500. Two intelligent lights can be purchased to increase the atmosphere lighting for high visibility events for \$650 each for a total of \$1,300. Lastly, a computer DMX lighting controller can be purchased to create entire shows and scents to enhance all lighting events for \$500.

Section 3: Appropriations

The President of the Association is hereby authorized to make capital expenditures not to exceed a total of \$5,800 for sound and lights equipment.
