6. **OLD BUSINESS**

There was no old business at this time.

7. **NEW BUSINESS**

a. Parking Services Discussion

Senator Hughes said that last Oversight meeting they had parking services come in and wanted to discuss the implementation of a new fee. She asked Senator Alvarez if she knew anyone who was willing to write a legislation in support of that.

Senator Alvarez said she thought they should present to the Senate body as a whole. Considering some committees only had committee meetings every other week and not every had the opportunity to explain the situation fully. Especially since two committee chairs weren't available at the meeting. She thought that would be a better investment even though she didn't personally agree with the new fee implementation.

Senator Hughes said she personally thought they presented a very false dichotomy option with the transportation increase. She thought they didn't come prepared and she wished they had included the expansion of the gateway district included in their plan because that was a fee that wasn't going to go away. They didn't even have a five year plan or ten year plan for that fee. So she thought they were unprepared and if it were to go to senate she wanted to send them an email including the things they'd need in order to consider taking it further.
