## [DISCUSSION DRAFT]

93rd SESSION  
2025-2026

**S. J. R. 93-**

**A JOINT RESOLUTION IN SUPPORT  
OF AFFIRMING THE VALUE “NON-  
PROFESSIONAL DEGREES”**

---

IN THE SENATE OF THE ASSOCIATED STUDENTS

---

DECEMBER 3RD, 2025

SUBMITTED TO THE SENATE OF THE ASSOCIATED STUDENTS AND AUTHORED BY SENATOR  
BARRUS AND SENATOR SAPORITO  
CO-AUTHORED BY SENATOR RADTKE, SENATOR CASTRO, SENATOR ATKINSON, SENATOR  
HOANG, AND SPEAKER PRO TEMPORE MOSS  
CO-SPONSORED BY SENATOR VILLA, PARLIAMENTARIAN ISSA, SENATOR DEBARGER, SENATOR  
EVANS, SENATOR BURROWS AND SENATOR DAYTON

---

**A Resolution in Support of Affirming the Value “Non-Professional  
Degrees”**

1        *Whereas*, the Department of Education’s 2025 negotiated-rule making and proposals narrowed  
2        which graduate programs qualify as “professional degrees,” explicitly keeping 11 fields<sup>1</sup> and using  
3        criteria like doctoral-level status, a minimum of six years of post-secondary instruction (including at  
4        least two post-baccalaureate years);

---

<sup>1</sup> The 11 fields are as follows: Medicine, Pharmacy, Dentistry, Optometry, Law, Veterinary medicine, Osteopathic medicine, Podiatry, Chiropractic, Theology, and Clinical psychology.

5        *Whereas*, the Higher Education Act (HEA) of 1965 aimed at increasing educational  
6        opportunities through providing financial assistance to students in post-secondary education<sup>2</sup>;

7        *Whereas*, the HEA developed a list of professional degrees that clarified which programs would  
8        be verified for additional graduate financial aid;

9        *Whereas*, the list of professional degrees mentioned in the act served as non-exclusionary in  
10      nature, as it would take far too long to list every department that would be applicable with the  
11      legislation;

12      *Whereas*, H.R.4137, the 2007 Higher Education Opportunity Act<sup>3</sup> had offered Loan Forgiveness  
13      and other forms of Federal Assistance to the programs that are deemed to be "unprofessional" as of  
14      2025;

15      *Whereas*, H.R. 4137 served to update, modernize, and expand the HEA to ensure the equal  
16      opportunity of American citizens within the 21<sup>st</sup> century;

17      *Whereas*, measures were brought in with the intention of creating a "new and simplified"  
18      Repayment Assistance Plan, annual loans for new borrowers were capped at \$20,500 for graduate  
19      students and \$50,000 for professional students<sup>4</sup>;

20      *Whereas*, the Department of Education (DOE) changed the definition of what counted as a  
21      professional program, and therefore eligible for the \$200,000 aggregate limit available for  
22      professional students<sup>5</sup>;

23      *Whereas*, programs and departments related to Public Health, Social Work, Education, Speech  
24      Pathology and Audiology, and Accounting could restrict students' access to federal loan limits,  
25      making education less accessible and affordable;

<sup>4</sup> [Nursing is no longer counted as a 'professional degree' by Trump admin - Newsweek](#)

<sup>5</sup> [Annual and Aggregate Loan Limits | 2025-2026 Federal Student Aid Handbook](#)

26        *Whereas*, this decision has significant implications for many undergraduate and graduate students  
27    nation-wide and at the University alike, forcefully shifting millions of American citizens into an  
28    unwarranted and unprecedented economic threshold;

29        *Whereas*, this policy initiative will detrimentally affect new generations of scholars who have  
30    already spent hundreds of hours in their desired work fields;

31        *Whereas*, previous reductions in need-based aid, college access programs, and campus support  
32    services already detrimentally increase the risk of non-completion<sup>6</sup>;

33        *Whereas*, many students often lack financial, social, and academic support systems that are  
34    critical to college success;

35        *Whereas*, First-generation college students, many of whom come from low-income families or  
36    communities of color, are uniquely vulnerable;

37    **SEC. 1. NURSING**

38        *Whereas*, the largest health care occupation<sup>7</sup> are registered nurses, with over 2.4 million workers,  
39    followed by nursing, psychiatric and home health aides (1.2 million). Women make up more than  
40    85% of workers in both large occupations<sup>8</sup>;

41        *Whereas*, at the University of Nevada – Reno, the Orvis School of Nursing has 150-200 students  
42    enrolled at any given time,

43        Whereas, this program has graduated 240 students between Spring 2023 and Fall 2025;

44        Whereas, nursing students are employed within three months of graduation, entering quickly  
45    into the workforce to support our Nevada community;

46        Whereas, cutting financial support for these programs has huge implications for Nevada's  
47    advanced nursing workforce, as this limits access to federal financial aid weakens the workforce by  
48    reducing who can enter;

<sup>7</sup> [U.S. Bureau of Labor Statistics: Healthcare Occupations & Occupational Handbook](#)

<sup>8</sup> [U.S. Census Bureau: National Statistics on Women Employed in Health-Care Jobs](#)

49        *Whereas*, cutting down the nursing pipeline can undermine national goals to expand a diverse,  
 50        highly educated nursing workforce capable of meeting growing population needs;

51        ***SEC. 2. PUBLIC HEALTH***

52        *Whereas*, the most common sector that offers Public Health programs are Public, 4-year or  
 53        above institutions (i.e. 27,306 completions as of 2023)<sup>9</sup>;

54        *Whereas*, the University of Nevada-Reno awarded 407 degrees in 2023;

55        *Whereas*, long-standing recognition as professional degrees within public health are essential to  
 56        community health, emergency preparedness, and prevention;

57        *Whereas*, if finalized, this could significantly increase the cost of obtaining a public health degree,  
 58        as well as further straining the workforce by staff shortages, rising chronic diseases, climate-related  
 59        events, global migration shifts, and ongoing spread of misinformation<sup>10</sup>;

60        ***SEC. 3. SOCIAL WORK***

61        *Whereas*, the most common sector that offers Social Work programs are Public, 4-year or above  
 62        institutions (i.e. 38,528 completions as of 2023)<sup>11</sup>;

63        *Whereas*, the University of Nevada-Reno awarded 297 degrees in 2023;

64        *Whereas*, declassifying BSW, MSW, and DSW as professional degrees will reduce access to social  
 65        work education, increasing the dependency on high-interest loans and create a decline in enrollment  
 66        in social work education<sup>12</sup>;

67        *Whereas*, the BSW program at UNR has had a 14.7% increase in enrollment (2020);

68        *Whereas*, 55% of BSW students are POC and 86% are female, classifying it as the most diverse  
 69        program at the University;

<sup>12</sup> <https://naswfl.socialworkers.org/Advocacy/Legislative-Updates/ID/3303/What-DOEs-Proposed-Change-Means-for-Social-Work-Degrees>

70        *Whereas*, BSW students at UNR achieve an 80% pass rate on the social work licensing exam,  
 71        which is 13% above the national average<sup>13</sup>;

72        *Whereas*, social workers help individuals, families, and communities in health and human  
 73        services;

74        *Whereas*, social workers are the largest providers of mental health services in the United States  
 75        and enact policy change on the federal level<sup>14</sup>;

76        *Whereas*, the field on social work is projected to grow by 11% from 2020- 2030, surpassing other  
 77        job market growth<sup>15</sup>;

78        ***SEC. 4. EDUCATION***

79        *Whereas*, the most common sector, by number of Education degrees awarded, is Public, 4-year  
 80        or above (172,661 completions)<sup>16</sup>;

81        *Whereas*, the University of Nevada-Reno awarded 354 degrees in 2023<sup>17</sup>;

82        *Whereas*, the University of Nevada-Reno awarded 168 degrees in Spring 2023 and 129 degrees in  
 83        Spring 2024;

84        *Whereas*, educators are vital supporters of our society and required to support the future  
 85        generations;

86        *Whereas*, educators serve as the fundamental and continuation for all college subjects, including  
 87        but not limited to Philosophy, Economics, Policy Analysis, Nursing, Business, and International  
 88        Affairs;

89        *Whereas*, Nevada's system of education consistently ranks near the bottom nationwide, and  
 90        removing further support from future teachers will only damage the state's education further;

91        *Whereas*, many big contributors to Nevada's poor assessment in education include a lack of  
 92        funding, poor test scores, and a shortage of student-teachers;

<sup>16</sup> [Education | Data USA](#)

<sup>17</sup> Ibid

93        *Whereas*, the Federal Government's notion on Professional Degrees will further attribute to the  
 94        state's educational shortfalls in funding and teacher shortage, as the career will continue to appear  
 95        less attractive to future educators, further transforming the role into one with incredibly low supply  
 96        yet high demand;

97        ***SEC. 5. SPEECH PATHOLOGY AND AUDIOLOGY***

98        *Whereas*, the most common sector, by number of Speech Pathology and Audiology degrees  
 99        awarded, is Public, 4-year or above (6,258 completions)<sup>18</sup>;

100        *Whereas*, the University of Nevada-Reno has awarded 22 degrees in 2023<sup>19</sup>;

101        *Whereas*, the American Speech-Language-Hearing Association (ASHA) has certified 2.3  
 102        Doctorates of Audiology (AuD's) per 100,000 Nevada residents;

103        *Whereas*, the number of certified AuD's per capita within Nevada is ranked 50<sup>th</sup> in the nation,  
 104        highlighting the severe lack of availability and accessibility within the state;

105        *Whereas*, the number of ASHA certified 33.4 Speech Language Pathologists (SLP) per 100,000  
 106        Nevada residents<sup>20</sup>;

107        *Whereas*, the masters program is the entry level degree for a SLP, and the average cost of a SLP  
 108        masters program ranges from \$23,000-\$75,000<sup>21</sup>;

109        *Whereas*, the clinical doctorate is the entry level degree for an AuD, and the average cost of an  
 110        AuD ranges from \$76,000-\$150,000<sup>22</sup>;

111        *Whereas*, the costs for these degrees are already growing increasingly expensive, which already  
 112        deters students from pursuing the necessary degrees;

113        *Whereas*, on top of the clinical hours needed and additional licensure costs, lack of federal  
 114        assistance can detrimentally affect a wide range of scholars;

116        *Whereas*, the most common sector that offers accounting programs are Public, 4-year or above  
 117        institutions (i.e. 37,847 completions as of 2023)<sup>23</sup>;

118        *Whereas*, the University of Nevada-Reno has awarded 80 degrees in 2023;

119        *Whereas*, nationally, the accounting profession remains a critical component of the U.S.  
 120        economy and business sector, with more than 1.5 million accountants and auditors employed across  
 121        the United States, sustaining businesses, nonprofit organizations, and government institutions;

122        *Whereas*, depriving accounting majors of recognition in federal policy jeopardizes access to  
 123        higher education for students pursuing careers in accounting and related professional roles, including  
 124        underserved, first-generation, and economically disadvantaged populations who rely on federal  
 125        student aid to complete their degrees;

126        *Whereas*, excluding accounting degrees from the “professional program” definition may reduce  
 127        enrollment in accounting majors and worsen the current shortage of qualified accountants, disrupting  
 128        essential functions such as financial reporting, auditing, and business operations across the U.S.;

129        ***SEC. 7. FILLER***

130        *Whereas*, nationally the total amount of degrees awarded in the following fields sum up to  
 131        282,600 degrees, and 1,160 degrees for the University of Nevada-Reno<sup>24</sup>;

132        *Whereas*, it is vital to our growing nation we continue to recruit qualified, prepared, trained and  
 133        supported practitioners;

134        *Whereas*, the fields targeted by this announcement are primarily female dominated, falling under  
 135        the “Pink Collar” Classification<sup>25</sup>;

136        *Whereas*, the targeting of diverse and primarily female programs serves as a threat to the  
 137        occupational outcomes of women and minorities; (good transition for call-to-action section)

138        *Whereas*, this policy threatens to deprive scholars and workers of vital opportunities for
